2017/2018 Corporate Sustainability Update

ManpowerGroup report on progress against our goals
In 2015 the United Nations set the 2030 Agenda for Sustainable Development. Included are 17 goals to improve the lives of people everywhere and protect the world we live in. At ManpowerGroup we actively support the UN Agenda and have been since we signed up to the Global Compact in 2006.

Our Sustainability Plan is built around learnability and employability

We are advancing the UN Sustainable Development Goals through our own Sustainability Plan, which is built around three pillars of learnability and employability — getting young people ready for work, helping people skill up and building inclusive workplaces.
CLOSING THE SKILLS GAP

In 2017, we invested $105 million in programs and partnerships around the world that helped more than 540,000 people get ready for work, skill up and participate in diverse and inclusive workplaces.
By 2030, Generation Z and Millennials will make up two-thirds of the workforce, and 65% of Generation Z will do jobs that do not exist yet.* We are committed to creating opportunities that help tomorrow’s talent develop the skills they need before they enter the labor market.

HOW WE HELPED YOUNG PEOPLE BUILD EMPLOYABILITY SKILLS

- Partnered with Junior Achievement in 31 countries, providing real-world experience to thousands of young people around the world:
